13th October 2021

Dear Parents/Carers,

I am writing to update you on the Covid situation at the school site. We have 3 positive Covid cases affecting staff and pupils. At the moment these cases are not linked to each other but we will continue to monitor the situation. You will have been notified separately if your child is a close contact of one of these cases.

Over the last few weeks we have had a number of cases at both of the college sites. As the cases were linked this meant that the college sites have been in an 'outbreak' situation and we have put in place measures to try and stem the outbreak. The measures that have been put in place are class bubbles, daily lateral flow tests (LFT), wearing of face masks and no non-essential visitors on site. If needed these measures will be put in place on the school site.

Our Covid risk assessment has been reviewed and updated so that it continues to support the risks around Covid but also ensures that we can keep as many pupils in school as possible. The updated risk assessment can be found on our website.

As you are aware, if you are contacted by track and trace to say that you are a close contact of someone who has tested positive for Covid you are asked to take a PCR test. The main change to the risk assessment is that we are no longer asking close contacts of a positive case to isolate while they await their PCR test result. The reason for this is due to the long incubation period for Covid we have found that this initial PCR test is not picking up cases. If staff are a close contact then we will ask them to do daily LFTs for the 10 days following the contact and be extra vigilant around symptoms.

We will let parents/carers know if their child has been a close contact and we will advise you to book a PCR test for them if they are able to tolerate it. We will also advise regular LFTs if your child is able. Pupils that are under 18 years and 6 months can continue to attend school/college as normal unless they have a positive LFT/PCR or become symptomatic.

I want to thank you for your continued support as unfortunately the impact of Covid is still being felt and will be for a while to come. I also want to send my best wishes to any pupil or staff member that is currently unwell.

Please do contact myself or any of the Deputies if you have any questions.

Best Wishes

Vanessa
